

DNN USER MANUAL FOR DNN 4.8+

WHAT'S NEW IN DNN USER MANUAL 4.8

NEW LAYOUT DEFINED BY EDITOR ROLES

DNN User Manual 4.8 has been restructured with chapter content now separated by editor roles.

For Example: the chapter on the Blog module is now divided into sections for All Users, Bloggers, Page Editors, Administrators and the Host; whilst the Feedback module chapter is divided into sections for All Users, Feedback Moderators, Feedback List Managers, Page Editors, Administrators and Host.

This new layout makes it simple to see who can perform which tasks and is a great timesaver when configuring site permissions.

MORE IMAGES!

- Over 300 new or updated screenshots
- Nearly all tutorials now contain at least one screenshot
- Most screenshots have been marked up providing a quick visual guide

ALL NEW MODULES

These modules have been newly documented for this manual:

- **Chat (01.00.10)**: Created all new tutorials and images for this new module.
- **MarketShare (01.00.00)**: Created all new tutorials and images for this new module.
